9 Oct 2021
1. Who was in attendance
    a. Everybody (Jack, Derek, Jazlyn)
2. What was discussed
    a. Creating issues in GitHub project tracker
    b. Determining the scope of current sprint
    c. Discussed finishing documentation, namely sitemap and user story acceptance criteria
3. Project Status (On Track or falling behind)
    a. On Track
4. Technical Details/Issues
    a. Still in design phase
5. Assignments made (listed by person) for upcoming week
    a. Derek
        i. Sitemap Layout
        ii. Main/Splash screen
    b. Jack
        i. Work on State Diagrams
        ii. Architecture Design Diagrams
    c. Jazlyn
        i. Create docker files
        ii. Activity diagrams
    d. All
        i. User stories/acceptance criteria
        ii. Database diagrams

10/16/21

1. Who was in attendance
    a. Everybody (Jack, Derek, Jazlyn)
2. What was discussed
    a. Setting up DB connection with JDBC
    b. Setting up Registration Validation
    c. Setting up and populating articles
3. Project Status (On Track or falling behind)
    a. Behind
4. Technical Details/Issues
    a. Docker wasn't working with the current-compose.yml but fixed during meeting
5. Assignments made (listed by person) for upcoming week
    a. Derek
        i. Logic for loading articles from database
    b. Jack
        i. Registration validation
    c. Jazlyn
        i. Set up JDBC and database (specifically for User)

       d.   All

10/23/21

1. Who was in attendance
    a. Jack Jazlyn
2. What was discussed
    a. Registration was set up
    b. Database now works
    c. Articles pull from in memory (DB soon)
    d. Spring Security basic setup + Password encoding in Registration
    e. Implementing Roles/Permissions
    f. Setting up Login Page
    g. Setting up more of the pages we'll need later
3. Project Status (On Track or falling behind)
    a. On Track
4. Technical Details/Issues
    a. Flyway migrations resisting changes to the database
5. Assignments made (listed by person) for upcoming week
    a. Derek
        i. Setup more of the pages found in DropdownStateDiagram
    b. Jack
        i. Finished migration scripts for Roles/Permissions
        ii. Look into Spring Security side of Roles/Permissions
    c. Jazlyn
        i. Login (Token-based Authentication)

10/30/21

1. Who was in attendance
    a. Jack, Jaz, Derek
2. What was discussed
    a. Jack's problems with Docker
    b. Login page
3. Project Status (On Track or falling behind)
    a. On Track
4. Technical Details/Issues
    a. Jack's computer doesn't like Docker anymore, working on it (Jaz and Derek helped)
5. Assignments made (listed by person) for upcoming week
    a. Derek

         i.   Unit tests post package
- b. Jack
    - i. Make sure migration scripts work then merge
    - ii. Set up JWTs for setting up cookies for users/for security
- c. Jazlyn
    - i. User package unit tests & refactor controllers

11/6/21

1. Who was in attendance
    a. Jack, Jaz
2. What was discussed
    a. Unit Tests
    b. Finishing off Spring Security
    c. Annotating everything with Log for Logging
3. Project Status (On Track or falling behind)
    a. On Track
4. Technical Details/Issues
    a. Resolved Unit Tests issues
5. Assignments made (listed by person) for upcoming week
    a. Derek
        i. Unit tests post package
    b. Jack
        i. Finishing off Spring Security on Login using permissions/assigning permissions
    c. Jazlyn
        i. Unit tests, user list page, working with Jack on Login

11/13/21

1. Who was in attendance
    a. Jack, Jaz
2. What was discussed
    a. Finalizing spring security stuff
    b. Implementing functionality for admins on User List pages
    c. Planning roles + permissions on registration and with Spring security
    d. Drop down menu
    e. Comments on Articles
3. Project Status (On Track or falling behind)
    a. On Track
4. Technical Details/Issues
    a. Impending merge conflicts
5. Assignments made (listed by person) for upcoming week
    a. Derek
    b. Jack

i. Look at what it'll take to implement comments on Article pages
ii. Look at making sure spring security works after merges from SpringSec and Login work
c. Jazlyn
i. Add navigation to authenticated user specific pages
ii. Create an edit user/view user page for admin

11/20/21

1. Who was in attendance
   a. Jack, Jaz, Derek
2. What was discussed
   a. Working on ArticleList page
   b. Planning on how to fulfil final requirements
   c. REST API
3. Project Status (On Track or falling behind)
   a. On Track
4. Technical Details/Issues
   a. Principal returns null
5. Assignments made (listed by person) for upcoming week
   a. Derek
      i. REST API
      ii. Post work
   b. Jack
      i. Continue work with Comments
      ii. Logout
      iii. Work on Unit Tests/documentation
   c. Jazlyn
      i. Finish admin functionality
      ii. Unit testing

11/27/21

1. Who was in attendance
   a. Jack, Jaz, Derek
2. What was discussed
   a. Finishing off comments
   b. Getting requirements done for deadline
   c. Rest API
3. Project Status (On Track or falling behind)
   a. On Track
4. Technical Details/Issues
   a. N/A
5. Assignments made (listed by person) for upcoming week
   a. Derek

          i. Rest API
          ii. Unit testing for Post package
    b. Jack
          i. Unit testing with Security and Comments
    c. Jazlyn
          i. Finish up the user package (tests, docs, etc.)
          ii. Unit testing, unit testing, and more unit testing
          iii. Make sure everything is hidden correctly with spring security

12/4/21

1. Who was in attendance
    a. Jack, Jaz, Derek
2. What was discussed
    a. Finishing off unit testing
    b. Making sure we have all diagram and setup materials
    c. Presentation for working solution
3. Project Status (On Track or falling behind)
    a. On-Track
4. Technical Details/Issues
    a. N/A
5. Assignments made (listed by person) for upcoming week
    a. Derek
        i. Unit Testing
        ii. Diagrams
        iii. Presentation
    b. Jack
        i. Unit Testing
        ii. Diagrams
        iii. Presentation
    c. Jazlyn
        i. Unit Testing
        ii. Documentation
        iii. Presentation Slides
